

Task 1– Personal Portfolio Website

Internship Task Submission

Project Title

Responsive Personal Portfolio Website

Objective

The objective of this project was to design and develop a responsive and modern personal portfolio website using HTML, CSS, and JavaScript. The website is created to professionally showcase personal information, educational background, technical skills, projects, interests, and contact details through an interactive and visually appealing user interface.

Technologies Used

- HTML5
 - CSS3
 - JavaScript
 - Tailwind CSS
 - Bootstrap Icons
 - Google Fonts
 - Responsive Web Design
-

Project Overview

This portfolio website serves as a personal digital profile that highlights academic background, technical skills, featured projects, and contact information. The design follows a modern UI approach using responsive layouts, smooth scrolling navigation, gradient backgrounds, hover animations, and clean typography.

The website is fully responsive and optimized for desktop, tablet, and mobile devices.

Features Implemented

1. Responsive Navigation Bar

- Floating navigation menu
- Smooth scrolling between sections
- Responsive layout for mobile and desktop
- Interactive hover effects

2. Landing / Home Section

- Personal introduction
- Professional branding
- Call-to-action buttons
- Modern gradient background
- Split layout design

3. About & Education Section

- Personal background information
- Academic timeline structure
- Educational details presentation
- Bento grid inspired layout

4. Skills Section

- Programming languages
- Web technologies
- Databases and tools
- Computer science concepts
- Interactive skill cards

5. Projects Showcase Section

- Project display cards
- Technology tags
- Project descriptions
- Responsive card layouts

6. Interests Section

- Personal interests and hobbies

- Icon-based design cards
- Interactive UI elements

7. Contact Section

- Contact information
- Email integration
- LinkedIn profile link
- GitHub profile link
- Functional contact form UI

8. Modern UI/UX Enhancements

- Responsive design system
- Hover animations
- Smooth transitions
- Modern typography
- Gradient color themes
- Bento-style card layouts

Folder Structure

portfolio-website/

Important Code Snippets

Navigation Bar Structure

```
<nav class="floating-nav">
```

```
<a href="#home">Home</a>
```

```
<a href="#about">About</a>
```

```
<a href="#skills">Skills</a>
```

```
<a href="#projects">Projects</a>
```

```
</nav>
```

Tailwind Theme Configuration

```
tailwind.config = {
```

```
  theme: {
```

```
    extend: {
```

```
      colors: {
```

```
        brand: {
```

```
          500: '#0d9488'
```

```
        }
```

```
      }
```

```
    }
```

```
  }
```

```
}
```

Contact Form Handling

```
function handleMessageSubmit(event) {
```

```
  event.preventDefault();
```

```
  alert("Message Sent Successfully!");
```

```
}
```

Learning Outcomes

Through this project, I improved my understanding of:

- Frontend web development
- Responsive website design
- Tailwind CSS utility framework
- UI/UX design principles
- Component-based layouts
- Modern navigation systems
- Interactive frontend development
- Website structuring and optimization

Conclusion

This project successfully demonstrates my frontend development skills by creating a responsive and visually modern portfolio website. The website effectively showcases my profile, technical skills, academic journey, and projects while following modern UI/UX design standards and responsive development practices.
